SOCIETY ISLANDS IN THE SOUTH SEA.

THE information respecting the happy change of affairs in the Otaheitan mission, which the Directors had the pleasure to announce in the last Report, has been abundantly confirmed by letters of subsequent date. The brethren, in a letter dated Eimeo, 23d of April 1814, observe, that they are now able to change the language of complaint for that of gladness ; they state that the good work of conversion appeared to be going forward ; and that the number of those who had renounced their idols and desired to be considered as the worshippers of Jehovah, amounted to FIFTY. They report that these persons are, in general, regular in their attendance on the means of instruction ; that they are in the habit of retirement for secret prayer ; that many of them pray in their families, and ask a blessing on their food ; that they carefully observe the Sabbath, associate to hold meetings for prayer, and that their moral conduct is greatly improved. Some of them appear to have experienced an inward change, evinced by their loving what once they hated, and hating the evil ways which once they loved ; that they are desirous of having their sins pardoned, and their hearts renewed ; and that they seem to be sensible of the need of divine influence to effect this. They add, that in consequence of this profession, their neighbours deride them, and distinguish them by the name of *Buree Atua*—“the praying people.” In this pleasing intelligence every member of the Society will doubtless rejoice, and give glory to God. Hereafter, let no Missionary, in any age or country, however long his patience may be tried, despair of final success. The word of God shall not return unto him void.

As yet, the brethren have not left the island of Eimeo, to return to Otaheite, nor has King Pomarre recovered his sovereign authority ; but some persons of consequence in Otaheite are among the professed converts. A chief, named *Upaparu*, and his people, have removed from that island to Eimeo, to enjoy the instructions of the Missionaries ; and although he has been importuned by his friends to return to idolatry, he appears to be steady in his profession : he says

that his brother, *Teirei*, (another chief,) is like-minded with himself, and that a great number of the people are desirous of instruction ; indeed many of them, although to their present disadvantage, have removed their residence to Eimeo. It is pleasing to notice among the converts *Matupupa*, who was a priest and a principal Areoi.

Nor is this disposition to receive the Gospel confined to Eimeo or to Otaheite. Mr. Nott, accompanied by Mr. Hayward, took a voyage to Huaheine, Rajatea, and Taha, preaching to the natives wherever they could collect them together, and were much pleased with their steady and fixed attention. At Huaheine they met with a young chief, who had been at Eimeo, who treated them kindly, and expressed a desire that Missionaries might be sent to his island. He professes himself a Christian, has cast off his gods, and observes the Sabbath. Indeed "the gods," says Mr. Nott, "have fallen into great disrepute, and the people scruple not to call them 'bad spirits'—'foolish spirits,' while they acknowledge Jehovah to be the 'Good Spirit.'"

The brethren are proceeding with the building of a small vessel, which, when completed, will enable them to visit other islands, and greatly contribute to the extension of their usefulness.

A circumstance of a singular nature has lately occurred : Captain Sir Thomas Staines, on the 17th of September 1814, fell in with an island, which it is thought must be that named *Pitcairn's* (or *Incarnation*), where he found forty persons, all of whom could speak English, and who proved to be the descendants of part of the crew of the *Bounty*, who mutinied in the year 1790, and who took the ship to this island, where it was destroyed. The people had never seen a vessel since that time, except the American ship *Topaz*, Captain Folgar, who touched there about six years ago. The people are reported to be moral and religiously inclined, and are under the direction of an old man, named John Adams, the only survivor of the mutineers. The Directors of the Society will consider what can be done for the spiritual benefit of these people, at present cut off from all intercourse with society.

The Missionaries at Otaheite have very laudably engaged in translating a portion of the Scriptures into the language of the natives, which they have printed at Port Jackson for dispersion among the islanders.

The pleasing change which has taken place in the South Sea missions, and the earnest request of the Missionaries, induced the Directors to determine on sending additional labourers to promote the promising work.—Four brethren, with their wives, are nearly ready to embark; they are acquainted with some useful arts, and will be able, besides affording religious instruction to the natives, to print whatever may be wanted for the use of the mission, as well as to promote other branches of civilization.

And here it may not be improper to note, that some of the brethren who many years ago left the mission at Otaheite, and settled at New Holland, have been very useful in furthering the cause of religion in that growing colony, either by preaching the gospel stately, or by keeping schools. It is pleasing to notice the establishment of a Philanthropic Society, for the protection of strangers from the islands. And Mr. Shelly, formerly our Missionary, has presented to the Governor of New South Wales, (a gentleman who promotes every good work, and to whom our grateful acknowledgments are due,) a memorial on the subject of civilizing the natives, which his Excellency has forwarded to England for the consideration of his Majesty's Government. In the mean time, Mr. Shelly is encouraged by Governor Macquarie to use his best endeavours for that desirable purpose.*

* Since the Report was read, a letter has been received from Eimeo, dated June 19, 1814, which states, that, since the date of their last (April 23, 1814), Messrs. Nott and Hayward had returned, having visited three islands, viz. Huaheine, Ulietea, and Taha. The people everywhere treated them with kindness, and Mr. Nott preached to large and attentive congregations, who, contrary to former practice, assembled of their own accord; intelligence from Taheite and Eimeo having made favourable impressions on their minds. "In short," say the Missionaries, "there is much encouragement (did our circumstances allow of it) to commence a mission in any of the Society Islands, and the chiefs wish it much. *Upaparu* and others, to the number of TWENTY-SIX, have been added to the number of professed worshippers of the true God, since the date of the above."

JAVA.

The three foreign brethren, the Rev. Messrs. Kam, Supper, and Bruckner, who embarked for Java at the close of the year 1813, arrived at Batavia on the 26th of May 1814. They were most kindly received by Rev. Dr. Ross, the venerable Dutch minister of the city, and introduced by him to his Excellency Governor Raffles, who treated them in the most polite and condescending manner, and they had the pleasure of witnessing soon after their arrival, in the Governor's house, the establishment of an Auxiliary Bible Society, of which Mr. Supper was appointed Foreign Secretary.

Dr. Ross lost no time in disposing of the brethren, so that they might be usefully employed. Mr. Kam was directed to Amboyna to officiate in the Dutch church, while he learns the Malay language. Part of the island is inhabited by Chinese.

Mr. Bruckner, another of the Missionaries, is appointed minister of Samarang, Mr. Montanus, the former minister, being incapacitated for labour by age. Mr. Bruckner will here apply himself to the language of the country.

Mr. Supper was earnestly requested by Dr. Ross to become his colleague in the church, there being far more ministerial duty than one minister is able to perform.—Mr. Supper's appointment, as well as that of the other brethren, was cordially approved by the Governor, who shewed himself perfectly ready to foward the views of the Society. Mr. Robinson, a Baptist Missionary, of whom our brethren speak very respectfully, preaches every Sunday afternoon, in the same church, in the Malay language.

The field of labour in Batavia, and throughout the island of Java, is exceedingly large: "Our number," say the Missionaries, "is like the dust of the balance;" and they earnestly wish that more labourers may be sent to their assistance.

The Society cannot but rejoice in these favourable events. The safety of their voyage, their friendly reception, and their appointments to useful stations, in which they may exercise their ministry, while preparing for their special work among the Heathen, call for our devout thanksgivings.

MAURITIUS, OR ISLE OF FRANCE.

Mr LE BRUN, who arrived at the Isle of France in June last, was received by his Excellency Governor Farquhar in a friendly manner, and the Society is much indebted to that gentleman for his kindness shewn to our Missionaries. Soon after his arrival, Mr. Le Brun was permitted to announce, in the Government Gazette, his intention of establishing a school for the instruction of those children among the French, whose parents could not afford the means of education. He has since commenced a Sunday school, for the children of both sexes, at different hours of the day, when several of the parents attend, and seem pleased, especially in joining to sing the French hymns which were furnished to Mr. Le Brun at the Society's expence. Mr. Le Brun takes every opportunity of circulating the Scriptures and Tracts, with which he was also plentifully supplied.

We must not omit to mention, that some pious soldiers of the 72d regiment have voluntarily contributed £35. to the funds of this Society, which the Directors acknowledge with peculiar pleasure, as a proof of their commendable zeal to impart to their fellow-men the blessings of the gospel which they have learned to prize.

The Governor having expressed his earnest desire to promote a mission to the island of Madagascar, the Directors have resolved to commence that work as soon as proper instruments can be obtained, with which they hope soon to be furnished.

CHINA.

THE Directors have received during the last year a number of printed copies of the New Testament, translated by Mr. Morrison into the Chinese language. With inexpressible delight they view these fruits of his successful labours, and humbly anticipate from their dispersion the most beneficial results. It affords a gratification of no ordinary kind, that the holy book on which our eternal hopes are founded, is, by their laborious Missionary, translated into a language which

may be read by hundreds of millions in China and other countries—perhaps by more than one-third of the human race.

The important business of distributing this sacred volume has occupied the serious attention both of Mr. Morrison and Mr. Milne, who have neglected no opportunity of giving it an extensive circulation.

Besides printing 2000 copies of the New Testament, Mr. Morrison has printed 10,000 copies of his Chinese Tract, and 5000 copies of his Chinese Catechism; but all these copies, however numerous, are very few, compared with the population of China. “The city of Canton,” says Mr. Milne “would be but indifferently supplied with a *million* of copies! But we have already gone much beyond our funds; and had it not been for a firm reliance on the liberality of the churches at home, we must have been contented with half the number (of catechisms and tracts). We cannot go a single step further, nor print a single copy more, unless more aid be afforded. This is the *fact*, and I hope it will plead more strongly than ten thousand entreaties with the Christian public.” *

Mr. Milne not being permitted, through the intolerance of the Romish clergy, to reside at Macao, determined to take a voyage on purpose to distribute the New Testament and Tracts. He left China in February 1814, in a vessel which conveyed nearly 500 Chinese emigrants, and he had the pleasure of seeing many of them, while on board, reading, in their own tongue, the wonderful works of God. He touched at the island of BANCA, a new settlement, where the Chinese were landed, and to which it is probable that many more of the Chinese will emigrate, where, by permission of the Commanding Officer, he distributed his books, and where he thinks a missionary station may be advantageously fixed.

He arrived at Batavia, March the 10th, where he was most kindly received by Governor Raffles, who afforded him every assistance in his power. Here he distributed several hundred copies of the New Testament, with some copies of

* The Religious Tract Society to whom Mr. Milne made an affecting appeal on this subject, has generously voted a handsome sum, to assist in the printing of Chinese tracts.

the first chapter of Genesis, which he printed on his voyage. He also supplied eight Chinese schools with catechisms and tracts, and had the pleasure of seeing them used as school-books by the children. He even deposited three copies of the Gospel in the temple of the goddess Kwan-yun, for the use of the priests, and also made arrangements for sending others to Banjermasen, Pontiano, and Sambas, on the island of Borneo.—Mr. Milne made a tour of fourteen hundred miles through the island of Java, in which he had an opportunity of conversing with many Dutch Christians, who had long been destitute of the means of grace. Through the recommendation of the worthy Governor, he was every where received by the British officers, both civil and military, and by all other persons with the warmest hospitality. The Chinese of all ranks; and in every place, received the books gladly, and listened with patience to his discourses concerning the true God. In short, he had abundant cause to be satisfied with his journey. Such, indeed, was the friendship with which the Chinese treated him, and so great was the confidence that they placed in him (calling him *Padri Tjina*—“The minister of the Chinese”) that he was strongly importuned to continue in Java, and establish a Chinese Mission there; but important reasons induced him to decline this proposal, in order to rejoin Mr. Morrison at Canton. After his departure we are informed, “that the Chinese in Batavia were enquiring after him, and expressing a strong desire that he would return, and explain to them the book he had given them; declaring that they could find no rest in their minds day nor night.”

The last letter received from Mr. Milne, was dated Batavia, the 4th of August, 1814, on which day he was to embark for Malacca, where he designed to pursue the same plan; and from thence to return to China.

While resident in Batavia, he composed and printed a farewell letter to the Chinese, in their own language; and it deserves remark, that this tract was finished on the very day which completed a single year from his first beginning to learn the language—a fact which proves that the difficulty of acquiring the Chinese language is by no means insuperable;

and, at the same time, does great credit to the talents and assiduity of our Missionary, who appears to be so well qualified to be the colleague of Mr. Morrison.

Mr. Morrison's continuance at Canton or Macao seems to be very uncertain. If his health should not render it necessary to take a voyage, other circumstances may, perhaps, induce him to remove to Malacca—a station which he has long considered as peculiarly favourable to the advancement of the Chinese Mission, and to the more extensive diffusion of evangelical truth in the immense regions of India beyond the Ganges. To forward his pious design, the Directors have dispatched Mr. Thomsen to Java, with a view to his proceeding to Malacca, under the direction of Mr. Morrison and Mr. Milne.

The expence attending the Chinese Mission is unavoidably very considerable; but its connection with the spiritual advantage of so many millions of mankind, will reconcile the Society to the great disbursement; which, however, is much relieved by the munificence of the British and Foreign Bible Society, who, on receiving the first copy of the Chinese New Testament that came to England, generously voted to Mr. Morrison the sum of *one thousand pounds* to assist him in the translation and distribution of the scriptures. The most grateful acknowledgments are due to that Society for this second donation to Mr. Morrison; one thousand pounds having been before voted to him for the same purpose. And here the Directors cannot help remarking how much the operations of Missionary and Bible Societies are assisted by each other, and it is a high gratification to observe, that our Missionaries in the East are rendered such useful agents in promoting the noble designs of the Bible Institution.*

* Since this Report went to press, a short letter has come to hand from Mr. Milne, dated Macao, Sept. 27, to which place he had returned to Mr. Morrison, in safety, from Malacca. He refers to a longer letter, which has not yet arrived; but he briefly mentions the truly important intelligence, that they had baptized their first Chinese convert—a second edition of the New Testament was in the press, the book of Genesis, a Chinese hymn-book, and a second religious tract.

INDIA.

We now beg leave to call your attention to that important and interesting part of the world, in which more than *a hundred millions of souls* are covered with the shadow of death, devoted to a degrading system of paganism, or the blind bigotry of Mahomedanism, a large proportion of whom are our fellow-subjects.

Our Missionaries in several parts of India, are proceeding in their arduous work with steady diligence, and gradual success; all complaining, however, that while the harvest field around them is so immense, the labourers are so extremely few. The Directors have felt the strongest anxiety to supply this deficiency as soon as proper instruments can be obtained. They have recently sent out Mr. Dawson to assist the brethren at Vizagapatam, and they hope, ere long, to add several more to their number.

MADRAS.

AT this Presidency, Mr. Loveless continues to preach at the chapel in the Black Town, twice on the Lord's-days, and on the Wednesday evenings. A small church has also been formed. His own school consists of forty children or more, including boarders and day scholars. He also intends to build a new school room on the ground adjoining to his chapel, for the education of poor destitute children, descendants of Portuguese and other Europeans. This is to be formed on the British plan. A few of Mr. Loveless's pious friends have formed themselves into a society called "The Missionary Fund Society," which has already transmitted to us the sum of twenty-eight pagodas. Mr. Loveless earnestly recommends the sending out additional labourers to Madras, which is certainly, on many accounts, a most important station; and the Directors hope soon to be enabled to comply with his request; in which case, it is probable that the number of native schools may be greatly increased, the superintendance of which would be an employment for which Mr. Loveless is well qualified, and in which he would greatly delight. The Directors will gladly promote this important object.

VIZAGAPATAM.

MR. GORDON and MR. PRITCHETT are proceeding as quickly as their other labours will permit, in the important work of translating the Scriptures into the Telinga language, which is understood by many millions of the natives, through a great extent of country. This labour becomes gradually more easy to them, from their more familiar acquaintance with the language, and their daily conversation with the natives. They have lately translated the book of the Acts, St. Paul's Epistle to the Ephesians, the First Epistle of St. John, and the book of Genesis, which, after careful, and repeated correction, will be printed. The Telinga gospels, translated by their excellent and lamented predecessors Cran and Desgranges, they distribute wherever they have an opportunity; sometimes to persons of distinction, and to the Brahmins, with whom they freely converse, endeavouring to convince them of the absurdity of their religious notions and practices. These men are, in general, blindly attached to their superstitions; yet they are sometimes silenced, and confounded before the people, who seem delighted to behold their confusion. Our Missionaries have made frequent visits to the heathen temples, at the festival seasons, and expose the folly of worshipping senseless idols, which the people sometimes readily admit, but plead in excuse their ignorance, and the authority of antiquity; many who are apparently convinced of the truth of Christianity, are too feeble-minded to avow their convictions in the face of shame and want. There is reason, however, to believe, that the truth is secretly making its way; that the minds of the people are roused to serious considerations; and that many of the detestable practices of Hindoo pagans are retiring before the light of the gospel. In Bengal fewer widows than formerly are now immolated on the funeral piles of their husbands, and only one victim perished under the wheels of Jaggernaut at the last festival.

The Brethren continue to preach to our countrymen at the settlement, and to make frequent excursions into the populous villages of the heathen in the neighbourhood; in

which, assisted by the converted Brahmin Anandarayer, who continues faithful and diligent, they read a portion of the Scriptures, and explain it; after which they converse freely with the people, and answer their objections.

Much good is likely to be effected by the two schools in this place, conducted by our Missionaries. In August last they had in their Gentoo school sixty native children on their book, about forty of whom daily attend. These are all instructed in Christian doctrine, and some appear to be convinced of its truth. They hope soon to establish another school at Allapooram, a populous village in their vicinity; and they speak with great pleasure of a Sunday School at Chiacacole, supported by a pious lady, who employs a number of young people in a tambour manufactory, and who takes care to have them instructed in the knowledge of the gospel.

GANJAM.

THE Society will recollect, that Mr. Lee, formerly at Vizagapatam, removed about two years ago to Ganjam, a populous town on the Orissa coast, with a pleasing prospect of usefulness, especially as he obtained the appointment of officiating chaplain to the settlement. A church has been built for him, and a congregation of about 100 persons attend with great seriousness. He has erected a school-house for native children, which he hopes will greatly facilitate the introduction of the knowledge of the Scriptures. He is proceeding in his translation of the Old Testament; he has also translated Dr. Watts's First Catechism, a spelling-book for children, and Bishop Wilson's book written for the instruction of the North American Indians. He expresses a strong desire that a fellow-labourer, who should apply himself to the Odea language, may speedily be sent out, as the Orissa country adjacent presents a wide field of usefulness. The Directors, however, have not yet been able to comply with his request, but it will doubtless be kept in view. Mr. Lee has received an invitation to another large town, where he would be supported without expence to the Society; but his removal is not expedient, unless his present station can be supplied by another Missionary. We are sorry to find that his endeavours

to instruct the natives have been restricted by authority ; but that impediment will certainly be removed, as soon as the late proceedings of our Government are known. He has distributed a great number of the gospels in the Telinga, most of which were applied for : this afforded a favourable opportunity to Mr. Lee of speaking to the people on their important contents.

CHINSURAH.

By letters received from Mr. May, since the last Annual Meeting, we find that he is labouring diligently in his favourite employment of instructing children ; and he appears to have made considerable improvements in the mode of conducting his schools. He mentions three schools now under his care : —1. The *Native Free School* in Chinsurah, containing 110 children, chiefly of Hindoos, and a few of Mussulmans. This school is divided into nine classes, seven of Bengallee, and two of English ; in the upper class are six young Brahmins, three of whom are monitors.—2. The *Chandernagore School*, containing 51 children.—3. The *Chinsurah Free School*, containing 40 boys, and seventeen girls ; in all, 218 children. About 300 of the natives have visited the school, as well as many European gentlemen, most of whom have expressed their warm approbation of his plans, and their admiration of the order and improvement of the children. It is probable that Mr. May's useful methods of instruction, when fully matured, will be adopted in other populous towns of Bengal. Mr. May continues also to study the language of the country, and to preach the gospel on Sunday evenings in the town.

BELHARY:

LETTERS received from Mr. Hands have been very satisfactory. He has, indeed, been at times very ill, and we fear that his constitution has suffered much from the climate ; but he labours to the utmost of his power in preaching, translating, superintending schools, and in distributing the sacred scriptures among the heathen.—Illness has prevented his making that progress in the translation of the New Testament into the Canara language which he earnestly wished, but

the gospels of St. Matthew and St. Luke are, before this time, finished for the press.

There are three schools under the care of Mr. Hands; one in his own house, for boarders and day scholars; another built at the end of his garden for the native children, of whom about 40 daily read the New Testament in the Telinga and Canara languages: he has a third school in the Fort, in which, when a European regiment is there, 80 children, or more, receive Christian instruction.—“ Some of these children,” says Mr. Hands, “ afford me great hope that God is beginning to work upon their hearts. Some of them voluntarily learn from three to six chapters or psalms every week, besides hymns. Thus, a number of poor children, who a short time ago were more ignorant, wretched, and depraved than the Heathen, have acquired a large portion of valuable knowledge, and promise to become blessings to the world and to the church of Christ. Many of the Hindoo children also are coming on very well; they are employed daily in reading, copying, and committing to memory parts of the gospels.” He intends to commence another school in a large village in the neighbourhood; and another in the mission garden, for children of the more opulent natives, and in which the most deserving of the children in the native school may have the privilege of learning English.

Mr. Hands has been much assisted in his labours, especially in his school, by a Mr. Taylor, a native of Madras, now our Missionary; and lately, by another person, who for many years held the situation of a catechist under a Catholic priest. He is an intelligent and pious man, and goes into the surrounding villages, in each of which he continues five or six days, distributes the gospels, and converses with the people. His name is *Xavier*.

Mr. Hands, like the rest of his brethren, earnestly desires additional help at Belhary; and points out a large town in the Mysore, a healthy place, a great military station, where the Canara language is spoken, and where there are many hundreds of Catholic Christians, who have long been without a priest.

It appears that God has greatly blessed his ministry among the poor, and to many of the soldiers: and as to “ the country-

born people," says a correspondent, " they are become quite a different sort of beings from what they were before he settled among them." The Directors are anxiously looking for another Missionary or two, to assist Mr. Hands at Belhary and its vicinity, where there are such promising appearances.

TRAVANCORE.

FROM Travancore little information has been received during the past year. Mr. Ringletaube continues his labours among several congregations, and, we hope, with a good degree of success.

CEYLON.

By the last accounts received from Ceylon, the Missionaries appear to be proceeding as before : Mr. Palm, who is minister of the Dutch church at Columbo, pays also some attention to the schools. Mr. Ehrhardt and Mr. Read are employed in the superintendance of schools in various districts. We rejoice in the zeal which has been manifested by the Columbo Bible Society ; who, while anxious to disperse among the natives the Holy Scriptures in their own tongues, express their "regret at the very small number of teachers competent to smooth the way to a general introduction of the sacred writings, by the impressive aid of oral instruction." This aid, however, begins to be afforded by some other denominations of Christians, and the Missionary Society, it is hoped, will be able to supply their quota to the much-needed assistance of this great and interesting island.

LASCARS, &c.

IN connection with our Report of Missions in Asia, it may be proper here to notice the proceedings of a Committee in union with this Society, for the commendable purpose of communicating Christian knowledge to the Lascars and Chinese, who in large numbers visit this country, as navigators of vessels from the East.

By the assistance of some of these foreigners, Mr. Thompson, Mr. Hutman, Mr. Eldred, and others, have attained such

a knowledge of the languages of India and China, as to render them useful to many ; and not to foreigners only, but to some of our own Missionaries, by initiating them in the Hindoo-stanee and Malay tongues. Many of the Lascars have been induced to attend at different places of worship in London, and at the Society's house, where the Scriptures have been read to them in their own languages. Portuguese and Mussulmans have also attended to read the Scriptures for themselves, and to hear *Golam Alley*, (a Lascar) read and explain the word of life. Of the conversion of this man the Committee entertaining good hope, he was accordingly lately baptised. Another person, named *Abdallah*, (formerly in the service of Sir Gore Ousely, in Persia,) has been useful in teaching the Hindoo-stanee, Persic, and Arabic languages, and in reading the Scriptures in those tongues to his countrymen. *Golam Alley* and *Abdallah* have renounced caste, and now dwell in the same house with Mr. Thompson.

Many English, Portuguese, Bengallee, and Chinese tracts, which have been distributed, were received with peculiar pleasure by the China-men, Lascars, and Portuguese, the latter of whom applied for and received some copies of the New Testament, several of which have found their way on board various ships returning to India.

The Directors cannot but highly approve (as they are sure the whole Society will) of these zealous endeavours of their brethren, in behalf of a set of hitherto despised, neglected, and oppressed people, who, it is hoped, will be sensible of their obligations to them, and reap spiritual advantage from their benevolent exertions.

AFRICA.

THE intelligence received from South Africa, during the past year, has been highly encouraging. The power of God has remarkably accompanied the preaching of the gospel, in four places especially ; and the holding of a Missionary Conference at Graaf Reynet, with the ordination of six native preachers, are events which form a new era in the history of South African churches.

BETHELSDORP.

AFTER the return of Mr. Read, and others from the conference at Graaf Reynet, in the month of August last, where their minds had been most deeply affected, a great revival of religion in Bethelsdorp took place. There was a general awakening of the people ; and, in a short time, *fifty* persons were added to the church, among whom was the son of a Caffre chief, who had resided at Bethelsdorp several years, had been taught to read and write, and had learned the business of a carpenter. He had, however, till now, discovered no regard to serious religion, but was a ringleader of the young people in their follies. The conversion of this youth made a deep impression on the minds of many, especially of his companions. Affecting scenes took place at some of their public meetings ; the greater part of the assembly being bathed in tears, and crying for mercy ; while the believing Hottentots wept for joy, on beholding so many of the heathen turned from darkness to light, and added to the church of Christ.

The Members of this Christian Society are now become exceedingly lively and zealous ; and lamenting their former negligence, proceed from house to house to instruct their neighbours. The school also prospers greatly, so that there is a good attendance without any compulsion ; and we are glad to hear, that the new or British system of education is introduced with good effect. From the revival at Bethelsdorp the happiest results may be anticipated, as Cupido and other preachers are making frequent excursions in various directions, to spread abroad the knowledge of a Saviour.

THEOPOLIS.

THIS is a new station, situated in Albany, a few days journey north of Bethelsdorp. The spot was chosen, and the land granted to the Missionary Society, by his Excellency Sir John Cradock, late governor of the colony.—On account of its vicinity to Caffraria, it promises to become, on the restoration of peace with the Caffres, one of the most important stations in Africa. Mr. Ulbrecht and Mr. Bartlett have re-

sided here for some time, together with a number of the people from Bethelsdorp: they have built their habitations on the bank of a river, and in the form of a square, each house having a garden behind it; they have also erected a place of worship, and Mr. Ulbrecht has been ordained pastor of the church.

MISSION TO THE BUSHMEN AT VANDERWALT'S FOUNTAIN.

THIS station was determined upon before Mr. Campbell left Africa. Intimations having been given to the Bushmen that teachers would be sent to that place, the intelligence circulated so widely, and was so well received, that upwards of *five hundred* of them repaired to the spot eagerly waiting the arrival of the promised Missionary. This is the more remarkable, as the wild inhabitants, being thinly scattered over the country, seldom appear together, in any considerable number, and it is doubted whether so many Bushmen were ever before collected on any occasion. Mr. Smit had been requested to undertake this mission; but his apprehensions of danger had caused him to pause, until hearing at the conference that such a multitude of people expected him, he determined to venture among them. We hope God will graciously protect and bless him, and make his endeavours useful. This will prove a great benefit to the country; will deprive the Bushmen of that savage ferocity by which they have been hitherto distinguished, and reconcile them to the white men, against whom they had a peculiar enmity; while it will greatly facilitate the journeys of Missionaries and others, who hitherto have been obliged, for safety, to travel in large companies. The conversion of the Bushmen will be a happy event for Africa.

GRIQUA TOWN; (Formerly called Klaar Water)

BEYOND THE GREAT OR ORANGE RIVER.

THIS is the most remote of all the missionary stations now occupied by our Society in South Africa. For several

years after the arrival of the Missionaries, the people continued to lead a wandering kind of life ; but at length they yielded to the intreaties of the Missionaries, and settled at Griqua Town, where some dwellings are erected, and a considerable extent of ground is cultivated.—Though some good progress had been made in civilization, yet few conversions had been observed for a long time ; but shortly after the visit of Mr. Campbell and Mr. Read, a pleasing work of God commenced, which issued in the conversion of about fifty of the Griquas, among whom were some of the worst people in the country : and now, the zeal both of the young converts, and of the older disciples (who had sunk into a Laodicean spirit) is become conspicuous. The latter lament their former indolence, and regret that they attempted so little for the conversion of the Corannas and Bushmen ; but they now wish by their activity to redeem the time that was lost. Mr. Anderson and Mr. Janz have begun to make regular visits to the out-posts, to preach the gospel to the natives, and their labours already appear to be blessed.

It is pleasing to report, that four of the converted Griquas, men of approved gifts, were set apart, at the late conference, as preachers, to instruct the natives in the region round about Griqua Town, and who, it may be hoped, will hereafter become pastors of Christian churches.

Among the events of the past year, we have to notice, with much concern, the death of Mrs. Janz, the wife of our Missionary. She was a converted Hottentot, a woman of good understanding and amiable temper, and whose manners so much resembled those of an European, that nothing but her colour seemed to distinguish her from a humble Christian in this country. Her death is a great loss ; for as she could speak the language of Latakkoo, she would have been an excellent interpreter to our brethren, in commencing the mission at that place ; but we trust God will raise up another in her room. By her death, Mr. Janz has lost a valuable companion, for she was, as Mr. Read expresses it, “his disciple, his convert, and his wife.”

BETHESDA.

THIS is another new station, situated on the Great River, about mid-way between Griqua Town and the West Coast; the people consist of Orlams, Corannas, and Bushmen. This place was visited by Mr. Campbell, who requested Mr. Sass and Mr. Helm to settle at it. Some time after their arrival, they wrote a very discouraging letter to the Society, representing the extreme wickedness of the people, and the danger of residing among them, and intimating the probability of soon being obliged to leave the station. In a short time, however, the aspect of affairs was happily changed, and their instructions produced the most blessed effects. Many were pierced to the heart with a sense of sin, and were constrained to cry, "What shall we do to be saved?" When the last letter was written, about fifty of these people had professed their faith in Christ, and had been baptized. We are in daily expectation of receiving the journal, containing the particulars of this extraordinary work of God, among a people so widely separated from the rest of mankind, and in the heart of the great African continent. This station is important, as forming a link of a chain, connecting the various stations on both sides of the country, and which promises to be of essential service to the missions in the interior.

PELLA,

IN SOUTH NAMAQUALAND.

FOR several years there had been no addition to the church of Christ at this station; but during the last year a great revival has taken place. The awakening was general among the poor Namaquas, and in the course of two or three months, about fifty professed their faith in Christ, were baptised, and received into the church, among whom are their two interpreters and a Namaqua chief.

Before Mr. Campbell left Pella, he requested Mr. Schmelen to explore the mouth of the Great River, and afterwards the Great Namaqua and Damara countries.—Mr. S. has returned from the proposed and dangerous journey; but

the particulars have not yet reached us. We are, however, informed, that he left the Great River on the 18th of May, and travelled northward till the 5th of July, sometimes passing through dismal wildernesses, without meeting with a human being for a fortnight together: at length, opposed by insurmountable difficulties, he was obliged to return. But in the course of his journey, he met with several numerous tribes, and conversed with ten chiefs, whose names he mentions, who all expressed a readiness to receive instructors, if such should be sent to them. He also found a large river, called the Fish River, on the banks of which there is a considerable population in the dry season.

On his return, Mr. Schmelen commenced a new mission at Klip (or Stone) Fountain, in Great Namaqua-land, a little above the Great River.

From the other missionary stations near the Cape, Stellenbosch, Tulbach, and Zurebrach, no particular information has lately been received, but we have heard that at George, or Hooge Krall, the work of conversion is still going forward.

When Mr. Campbell was in Africa, he recommended to the brethren, whose stations were widely separated, to hold a General Meeting, annually, at some central place, that they might inform each other what God had wrought by them; and what difficulties they found in their work; and confer on the best means of promoting the cause of Christ in Africa.

Agreeably to this advice, the Missionaries held their first meeting at Graaf Reynet, where Mr. Kicherer resides. This meeting has been the means of greatly edifying and animating the Missionaries and their people; the arrival of Mr. Anderson, with several of his converted people, afforded the assembly great delight, and excited great gratitude for the grace manifested to the poor Griquas.

Another cheering scene was soon presented. Six converted natives, Griquas and Hottentots, were solemnly designated as assistant preachers of the gospel;—their names are, *Berend, Jan Hendrick, Andries Waterboer, Peter David, Jan Goedman, and Cupido*. On the next day *Waterboer*

preached on Acts xvii. 30, 31.—The first sermon, probably, ever delivered by a Hottentot preacher in a pulpit.

The whole was highly pleasing, and very useful ;—a very favourable impression was made on many, in behalf of the missionary cause. Two hundred dollars were collected for the Missionary Society, and an Auxiliary Society formed ; twelve of the inhabitants of Graaf Reynet were chosen Directors, and upwards of three hundred dollars subscribed.

The recital of what the God of all grace has been pleased, by his Holy Spirit, to effect on the hearts of Hottentots, Griquas, and Bushmen, will doubtless excite our warmest thanksgivings to Him ; nor can we forget to acknowledge his goodness in disposing the mind of Mr. Campbell to undertake a journey so laborious and so perilous ; in enabling him to perform it in safety ; and in rendering it of such essential use to the interests of missions in Africa : the benefits already visible are great ; and it may be hoped that, through his instrumentality, the blessings of the gospel may hereafter be extended to regions yet unknown.

Animated by the information received, the Directors lost no time in looking out for suitable labourers to be employed in the vast field thus presented to them ; and they hope that the four Missionaries, Mr. Evans, Mr. Williams, Mr. Barker, and Mr. Hamilton, who with their wives are now on their voyage to the Cape, will prove good and useful Missionaries. Three of them unite, with a competent knowledge of the gospel which they are to teach, an acquaintance with those mechanical arts which are so necessary for the civilization of a rude and savage people. These brethren, with others who can be spared from some of the stations in Africa, and conducted, as we hope, by Mr. Read, Mr. Anderson, or Mr. Janz, are intended to proceed from the Cape, by the way of Graaf Reynet, and Griqua Town, to Latakkoo and other places to which Missionaries are promised ; and we earnestly entreat the prayers of the Society in their behalf.

MALTA.

THE Directors are concerned to state, that they have not yet been able to supply the place of the late Mr. Blomfield,

at Malta; but they hope in a few months to send a Missionary to that important station, with a view to promote the knowledge of the gospel in the Greek islands, and on the Asiatic continent.

NORTH AMERICA.

MR. SPRATT continues his stated labours in Quebec, where the people are now engaged in building a suitable place of worship, which was greatly needed. His congregation increases, and his ministry appears to be attended with the divine blessing. He informs us that the scriptures are making a silent progress into the interior of the country, and are readily accepted by many of the Catholics. If Mr. Spratt should continue at Quebec, it is hoped that the Society will soon be relieved from all expence on his account.

By a letter from Mr. Cox, dated at Montreal, on the 30th of August, 1814, it appears that a clergyman having been appointed for the towns of Augusta and Elizabeth, where he preached for about two years, his labours there are no longer necessary. He is therefore removing to another place in Upper Canada, where ministers are much wanted, having first obtained a very honourable testimony to his good conduct while at his former station. The country around him had suffered much by the late war.

At Elizabeth Town in Upper Canada, Mr. Smart still resides, and faithfully preaches the word of life, notwithstanding the impediments and alarms occasioned by that lamented war which is now so happily terminated. Mr. Smart's labours are not confined to the place of his residence; he makes frequent excursions to various and distant places, where he has met with encouragement, particularly at a place in the township of Lansdown; and he had it in contemplation, when he wrote last, to take a preaching journey of 300 miles or more into the interior of the country.

Mr. Pigeon, formerly our Missionary in New Brunswick, now labours in Prince Edward Island; and endeavours to propagate the gospel in various parts of it. He says that

more ministers are much needed, and that a preacher in the Gaëlic tongue would be peculiarly acceptable. Bibles, Catechisms, and Tracts, would be gladly received.

WEST INDIES, &c.

TRINIDAD.

MR. ADAM, our Missionary at Port of Spain, in the island of Trinidad, continues to labour with much patience and assiduity. In the town, he is not without some encouragement from seeing the fruit of his labours; a few being added to the church formed in that place, who appear to be living epistles of Jesus Christ. On the Coast, he spends one week of every month, and has liberty to instruct the slaves on several estates, whose numbers amount to about 2000, and who are very anxious to be taught. He has reason to believe that his ministry has been useful to many; but it is very desirable, and earnestly requested by him, that an additional labourer or two may be sent to his assistance; but it is to be regretted that the expence of living in Trinidad is very considerable. There is reason, however, to hope that contributions will be made by the owners of the estates, to lessen the expence.

Since the removal of Mr. Elliot from TOBAGO, that missionary station has been destitute of a preacher; but it is the earnest wish of the Directors to supply the defect as soon as it is practicable.

Mr. Wray labours at his new station in Berbice. He had fresh ground to break up, and many difficulties to encounter. But he is not without some encouragement, which is increased by the residence of a gentleman of influence, who will feel a pleasure in promoting the religious instruction of the slaves.

Mr. Davies, at George Town in Demarary, preaches to a great number of negroes, and it is hoped with a considerable degree of success. At Le Resouvenir some unpleasant circumstances have occurred, which have retarded, for the pre-

sent, the progress of the good work in that place, but which it is hoped will soon cease to exist.

SEMINARY.

As it is of the first importance to this Society that a sufficient number of duly qualified Missionaries should, from time to time, be obtained, the Directors are gratified by being enabled to state that, proportioned to the increasing demands of that institution, many pious young men have lately expressed their earnest desire to be employed in the missionary work. During the past year *nine* have been admitted into the Seminary ; *nine*, having finished their studies, have gone forth into the field of labour, and two have been removed by death.* There are now at Gosport *twenty students*, who are reported, by their worthy tutor, to be diligent and promising, and likely to become respectable and useful Missionaries. Several others candidates for the work have recently applied, well recommended by their ministers : and here we beg leave to observe, that the Directors receive, with peculiar satisfaction, such as are recommended by the churches to which they belong. During the past year, we have had the pleasure of admitting four young men, who had previously received the rudiments of a learned education ; and the Society is much indebted to the managers of the seminaries by which they were patronized, for the liberal spirit which they manifested by readily acquiescing in the wishes of the students, who gave the preference to missionary services.†

The Directors embrace this opportunity of acknowledging their obligations to their much esteemed friends, ministers, and others, both in town and country, for the zeal with which they have contributed to the support of the Institution, by personal subscriptions, congregational collections, and auxiliary

* Mr. Blackbone, and Mr. Omer.

† Mr. Evans now on his voyage to Africa, was for four years under the tuition of the Rev. Mr. Peter, at Carmarthen. Mr. Lowndes, was two years at Leaf Square Academy, near Manchester. Mr. Knill, now at Gosport, studied two years at Axminster, under the direction of the Rev. Mr. Small; and Mr. Mead, who is also at Gosport, was preparing under the patronage of a respectable Society for Orders in the Established Church.

associations, both among adult and juvenile christians of both sexes. The increasing liberality of the religious public will not be devoted to the purpose of forming a large and useless fund ; but will be freely employed, yet with economy, in the extension of the work, as the providence of God shall direct. Already, encouraged by the augmented income of the Society, the Directors have admitted a large number of students, and sent out many new labourers ; their efforts have kept pace with their means ; and every year, we trust, will witness increasing ardour and multiplied exertions in behalf of the heathen world. They have now in prospect a mission to the Afghan nation in Cabul, supposed by some to be the descendants of the ten lost tribes of Israel ; another to the Monguls and Manjurs in and near Irkutsk in Eastern Tartary ; and a third to Madagascar ; they wish also to strengthen, as soon as possible, the hands of their missionary brethren in various parts of India, who are importunate for additional help.

The Directors now submit this brief account of their proceedings to the Society, and will be happy to find it satisfactory to them. They hope it will appear that the great and glorious work, in which all our hearts are engaged, is proceeding in an encouraging manner. In the islands of the South Sea, the darkness, we trust, is past, and the true light begins to shine.* In China and the neighbouring countries, many are now reading, “in the tongue wherein they were born,” that holy book which is able to make them wise unto salvation. In India, multitudes are listening to the voice from heaven and begin to despise their senseless idols ; and in South Africa, a great number of Hottentots, Griquas and other natives, have not only heard the joyful sound, but have found it to be the power of God to their salvation ; a great revival has been experienced in four different places, and about fifty in each appear to have been lately converted to God. Savages, once ignorant and ferocious as the brutes around them, have been

* Since this Report was read to the Society, information has been received, that *Upaparu*, a chief, has joined those who profess the worship of the true God, with twenty-five other persons, making, in all, about seventy-five, who have renounced idolatry. The chiefs of other islands are also desirous of receiving Missionaries.

civilized ; and instead of being wandering plunderers and cruel murderers, they now live peaceably, comfortably and usefully in Christian society. Schools for the Christian instruction of the children of the heathen, as well as the descendants of Europeans, are, in many places, established, with the most pleasing prospect of success. Our missionaries in every quarter are calling upon us for additional labourers ; new fields for missionary efforts are continually pointed out to our view ; pious and promising young men come forward, saying, "Here are we, send us :" while our affectionate friends, throughout the United Kingdom, as well as in foreign parts, are replenishing our funds with their bounty. What shall we say to these things ? Shall we not humbly and thankfully exclaim—"The Lord of Hosts is with us, the God of Jacob is our refuge."—"To HIM be glory in the church, by Christ Jesus, throughout all ages, world without end. Amen."

and the question of whether such a proposal has plausibility, but it is also clear that one would have to make a plausible argument to support it. I think that the best way to do this is to consider the two main kinds of arguments that have been put forward. The first kind of argument is based on the claim that the proposed change would be better than the status quo. This is the kind of argument that is most commonly used in political philosophy, and it is the kind of argument that is most likely to succeed in the long run. The second kind of argument is based on the claim that the proposed change would be worse than the status quo. This is the kind of argument that is most likely to fail in the short run, but it is the kind of argument that is most likely to succeed in the long run.

Secondly, I think that one must take into account the

MISSIONARY SOCIETY,

ESTABLISHED IN 1795.

PLAN.

I. THE NAME.—THE MISSIONARY SOCIETY.

II. THE OBJECT.—The sole object is to spread the knowledge of Christ among heathen and other unenlightened nations.

III. THE MEMBERS.—Persons subscribing one guinea, or more, annually—every benefactor making a donation of ten pounds—one of the executors, on the payment of a legacy amounting to fifty pounds, or upwards; and Ministers, or other representatives of congregations in the country, which subscribe or collect for the use of the Society five pounds annually.

IV. GENERAL MEETINGS.—To be held annually in London on the second Wednesday of May, and oftener if necessary, to chuse a Treasurer, Directors, Secretary, and Collectors, and to receive reports, audit accounts, and deliberate on what farther steps may best promote the object of the Society. At every such meeting, one sermon, or more, shall be preached by one or more of the associated Ministers, and notice given, as is usual on such occasions. The President for the day shall open and conclude the meeting with prayer, and sign the minutes of the proceedings. All matters proposed, shall be determined by the majority of the members present.

V. THE DIRECTION.—To consist of as many Directors, annually chosen out of its members, as circumstances may require. At the first meeting twenty-five shall be elected, with power to associate with themselves such an additional number as may be judged by them expedient, when the extent of the Society is ascertained. Three-fifths, and no more, of these Directors shall reside in or near London; where all monthly meetings shall be held for transacting the business of the Society. Not less than seven shall constitute a board. For greater facility and expedition, they may subdivide into committees, for managing the funds, conducting the correspondence, making reports, examining Missionaries, directing the missions, &c.; but no act of these committees shall be valid till ratified at a monthly meeting. No expenditure exceeding £100 shall be made without consulting all the Directors, or £500 without calling a general meeting of the subscribers. Annual subscribers of £10 or upwards, and bene-

factors of £100 or more, may attend, if they please, with the Directors, at any of the monthly meetings. On any emergency the Directors shall call a general meeting of the Society, to whom their arrangements shall be submitted: nor shall they enter upon a new mission till they obtain the general concurrence.

VI. THE FUNDS—Arising from donations, legacies, subscriptions, collections, &c. shall be lodged, as soon as collected, in the hands of the Treasurer. The Directors shall place in the public funds all monies so paid, whenever they exceed £300, until they are required for the use of the mission; excepting it appears to them prejudicial to the interests of the Society.

VII. SALARIES.—The Secretary shall receive such a salary as the Directors may appoint; but the Directors themselves shall transact the business of the Society without any emolument.

At the annual meeting, held the 14th of May, 1812,

Resolved, That those Ministers in the country who are annual subscribers, or whose congregations send an annual collection to the Society; and all presidents, or principal officers, of country auxiliary Societies, who may be in London occasionally, shall be Directors *pro tempore*, and be entitled to meet and vote with the Directors.

At the annual meeting, held the 12th of May, 1814,

Resolved, That a copy of the Fundamental Principle, adopted at the first annual meeting in May, 1796, be printed at the end of the Plan.

FUNDAMENTAL PRINCIPLE.

As the union of God's people of various denominations, in carrying on this great work, is a most desirable object; so to prevent, if possible, any cause of future dissension, it is declared to be a *fundamental principle* of the Missionary Society, that our design is not to send Presbyterianism, Independency, Episcopacy, or any other form of Church order and government (about which there may be difference of opinion among serious persons), but the glorious Gospel of the blessed God, to the Heathen; and that it shall be left (as it ought to be left) to the minds of the persons whom God may call into the fellowship of his Son from among them, to assume for themselves such form of Church government as to them shall appear most agreeable to the Word of God.
